REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Prior arts of record do not disclose a strain measurement system. The system comprises: a tunable light generator comprising a Super Luminescent light emission Diode (SLD), and a tunable Fabry-perrot (FP) filter cascaded to an output terminal of the SLD to convert light having a wideband spectrum, which is generated in the SLD, into discrete optical signals having central wavelengths at regular intervals; wavelength compensation means for receiving the optical signals from the tunable light generator through the coupler and detecting wavelengths of an optical signal output from the tunable light generator and passed through the FP filter which structurally arranged and functionally operated as claimed in claims 1,7,10,16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu T. Nguyen whose telephone number is (571) 272-2424. The examiner can normally be reached on T-F 7:30-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Toatley Jr. can be reached on (571) 272-2800 Ext. 77. The fax
